TIPO DE CURSO

Complementario

(Básico, Avanzado, Complementario, Seminarios Bibliográficos, Formación General)

CLASES	...14... HRS.
SEMINARIOS	...16... HRS.
PRUEBAS4.....HRS.
TRABAJOS	...116....HRS.

Nº HORAS PRESENCIALES	34
Nº HORAS NO PRESENCIALES	116
Nº HORAS TOTALES	150

CRÉDITOS

5

(1 Crédito Equivale a 30 Horas Semestrales)

CUPO ALUMNOS

5

(Nº mínimo)

15

(Nº máximo)

PRE-REQUISITOS

Ser alumno del Doctorado en Ciencias Biomédicas o Médicas. Leer y entender Inglés científico. Nivel intermedio de Inglés (B1-B2)

INICIO

06 de Abril 2018

TERMINO

27 de Julio 2018

DIA/HORARIO
POR SESIÓN

Viernes

DIA / HORARIO
POR SESIÓN

16:30 a 18:30 hrs.

LUGAR

Auditorio CEMC, Sector B, primer piso, FM, UCH

Escuela De Postgrado (Sala a determinar) u otro lugar

METODOLOGÍA

Students will be exposed to a series of scientific talks and articles, critique, abstract and cover letter writing. Analysis and discussion of style and pronunciation issues and difficulties will follow using a series of exercises and tasks.

The course will use a top-down and a bottom-up methodology, allowing students to learn from the examples given for them to produce their own pieces of scientific communication samples.

The written and oral tasks will receive feedback by the Professors and the students, so that awareness of most common problems in the production of written and oral scientific English is developed, and communication is thus improved.

(Clases, Seminarios, Prácticos)

EVALUACIÓN (INDICAR % DE CADA EVALUACION)

Students will be evaluated as follows- a) listening quizzes (15%); b) written critique (15%); c) written abstract, and cover letter (20%); d) preparation and participation in Talks (25%); f) final oral and written exam (25%).

Attendance to 90% of the evaluated tasks is required to pass the course.

PROFESORES PARTICIPANTES (INDICAR UNIDADES ACADEMICAS)

Centro CEMC y FONDAP ACCDiS-Universidad de Chile

Dr. Lisette Leyton, Facultad de Medicina,
Dr. Andrew Quest, Facultad de Medicina

PhD(c) Invitados:

Alumnos de Doctorado de la Facultad de Medicina, Universidad de Chile con dominio del idioma inglés a nivel avanzado: América Campos, Octavio Orellana.

Profesores invitados:

Dr. Miguel O'Ryan, ICBM, Facultad de Medicina, Universidad de Chile
Dr. Vicente Torres, Department of Basic Sciences, Facultad de Odontología, Universidad de Chile
Dr. Mariana Cifuentes, INTA, Universidad de Chile
Dr Mario Chiong, Facultad Ciencias Químicas y Farmacéuticas, Universidad de Chile

Ayudantes Docentes:

América Campos PhD(c), Programa Doctorado en Bioquímica, Facultad de Cs. Qcas. y Farmacéuticas, Universidad de Chile
Josefina Marín PhD(student), Programa Doctorado en Ciencias Biomédicas, Facultad de Medicina, Universidad de Chile

DESCRIPCIÓN

The aim of this course is to provide students with the linguistic tools to improve the written and oral communication of their scientific research in English. Emphasis will be on the essential structural patterns for the appropriate writing of scientific related documents such as critiques, abstracts, and cover letters. Also, the course aims at developing some listening skills strategies, which are key to improving the pronunciation of words and expressions that are difficult for Spanish speakers when communicating their research.

The course will be based on real samples of articles, abstracts, letters and scientific talks given by invited Professors from the Faculty of Medicine and other institutions, whose native language is English or who publish and speak English at an advanced level.

OBJETIVOS

This is the first course of the English Program for Ph.D. students of the Faculty of Medicine, intended for those that have intermediate English level. It aims to develop and improve English proficiency in students whose native language is Spanish; in order to help them communicate about the work they perform as scientists. The specific aims are:

1. To give students knowledge about the correct use of English.
2. To practice writing skills at the sentence and paragraph level.
3. To practice oral skills by presenting their research to the rest of the classmates.
4. To practice listening and speaking skills so as to improve communication of scientific research.

CONTENIDOS/TEMAS

The course will include the following activities:

- Scientific talks given by invited Professors, whose native language is English, or who publish and speak English at an advanced level.
- Listening practice and comprehension.
- Students will learn how to write a critique, an abstract and a cover letter.
